

Pennington Family

I don't usually post reviews, but I had to say something after having Fox Pools Hendersonville work with us. First of all we knew next to nothing about in-ground pools. After talking to several local companies I ended up discussing with David what I was looking for. I had a design in mind, as well as drawn out on paper, and just needed some guidance in order to determine how to move forward. We met at my property and I showed David my concept, and within an hour we had a plan; mostly with his input.

After shopping around I decided to have David at Fox give me a quote on our design. I was really surprised at the value, and was willing to move forward. At this point I met with his crew which included James, and he laid out the design and we were off. These guys are top notch, and I highly recommend them. The finished product exceeded our expectations, and we are very happy with the final product." I still have the concept plan I drew out on a legal pad." One happy Margaritaville!
