

We recently had Fox install our pool & they exceeded all of our expectations. Dave was extremely helpful during the planning stages and provided much needed expertise when making the final decisions. James and Christina worked diligently during the build even though they had plenty of weather and an underground spring to contend with. After the sale service has been top-notch as well. The staff inside the store are always welcoming and I never feel that I walk out with something I don't need to maintain or pool properly.

I highly recommend Fox and will continue to do so.
